

Dear Residents,

Following on from our AGM in June we are excited to announce that the upgrade to our playground will be installed **this October!** Along with a new play unit we will also have some swings and an additional bench. Below is an image of the play unit and a google image of the green to show the location. The materials used are rustic in nature to blend in with the current playground which will also be freshened up. Installation will take about 3 weeks during which time the area will be closed off. Not only will the new play area provide a safe and fun space for all the members of our community but also brings added value to our estate overall! We look forward to having a community social event to celebrate the opening!
